

Here I will have the main welcome page

With a main nav bar

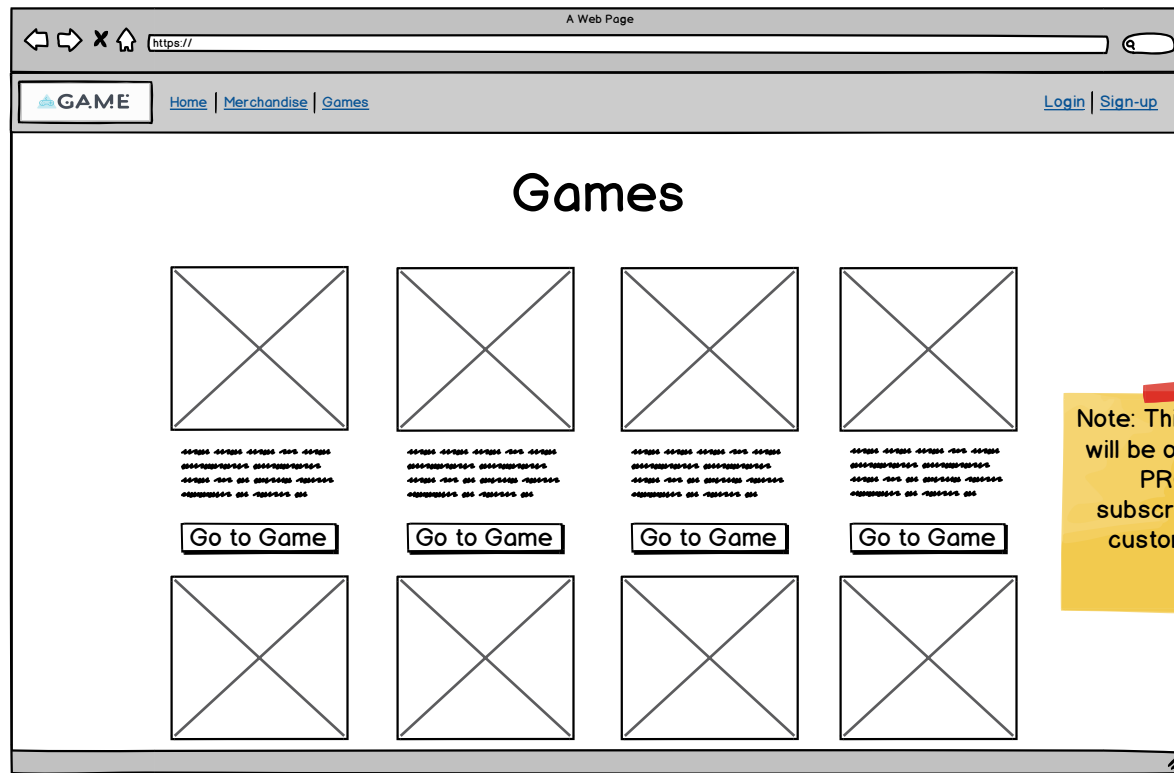

this will have a overview going dwon the page with an overview and a general about layout explaining what the webite is and does.

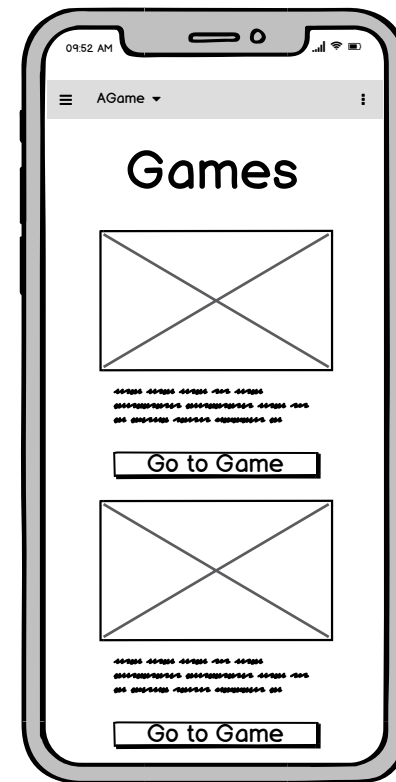

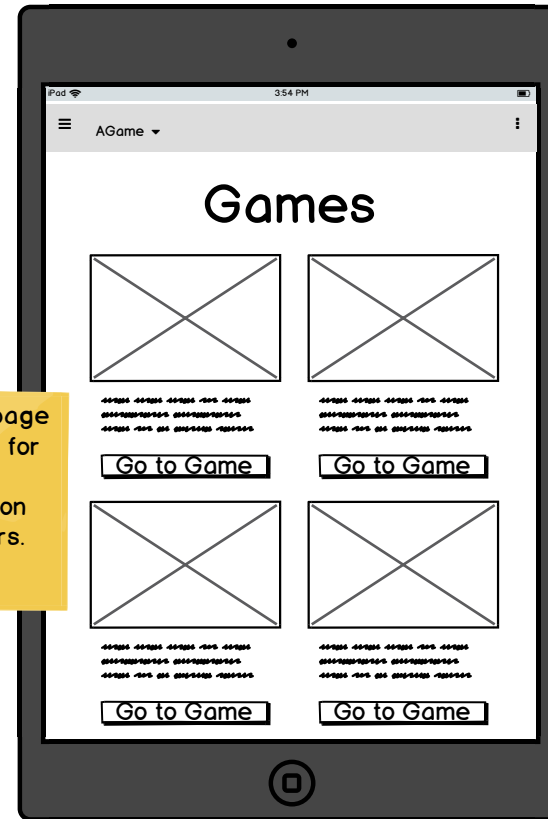

Here I will have the Merchandise Page

this will have a list of merchandise that the customer can purchase once they have created an account

this will link into a shopping cart and then a checkout page.

Note: This page will be only for PRO subscription customers.

Here I will have the Game Page

This page will only be able to be accessed by a customer that has a PRO subscription active on their account.

this will have a list of Game available to download and play when the customer has subscribed to the Pro subscription

Here I will have the Checkout Page

this will have the area where the customer can enter their details and pay for the products.

this will use stripe and then have a way to link the details to the customer profile once an account is created.

Here I will have the Profile Page

This will have the following Info:

- 1. Account details
- 2. Subscription Info
- 3. Order History
